

Compatibility Report for 6Gb/s SATA+SAS HBAs

This represents basic compatibility and is only a guide to hardware which is
Known to function with the listed 6Gb/s SATA+SAS HBAs.

Updated 08/26/2014

Controllers ♦ SAS/SATA Enclosures ♦ Motherboards ♦ Hard Disk Drives ♦ Solid State Drives ♦ Cables

LSI Concept Validation and Solution Lab performs comprehensive functionality testing in order to demonstrate compatibility of the HBA product line. The listed components represent the compatibility guide for the storage ecosystem based on our findings. Testing consists of individual test cases specific to Enclosures, Drives, and Motherboards and includes RAID functionality across all supported RAID levels, basic enclosure SES functions (Drive Locate, Array locate, fan poling, temperature, power supply information, enclosure information), enclosure power cycles during IO and physical drive pulls
